

## Keep Guests Happy With Clean, Film-Free Flatware

This enzymatic formula is designed to remove proteins and other soils from flatware in convenient, dissolvable, ready-to-use packets.

## SWISHER ENZYMATIC FLATWARE PRESOAK PACKETS

- Enzyme formula breaks down stubborn food soils that dishmachines alone can't handle
- Reduced rewash means lower overall warewashing costs
- Premeasured, water soluble packets ensure proper dilution and prevent costly overuse and spillage.

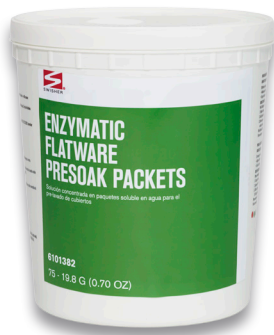

### Swisher Enzymatic Flatware Presoak Packets

include enzymes that break down food soil films from starch and protein that machine washing can't remove.

#### DIRECTIONS:

1. Place one packet of Swisher Enzymatic Flatware Presoak into 3 - 4 gallons of water.
2. Place flatware into solution.
3. After soaking, wash and rinse with clean water, then sanitize with an EPA-registered hard surface food contact sanitizer.
